HARDIK LAD

Senior Full Stack Developer · 5+ Years Experience

+91 9913448692 | Hardiklad83@gmail.com | Hardiklad2606@gmail.com | hardiklad.xyz | Surat, Gujarat, India

PROFESSIONAL SUMMARY

Detail-oriented Senior Full Stack Developer with 5+ years of experience designing, building, and deploying scalable web and mobile applications across banking, insurance, education, sports tech, and sustainability domains. Proven track record of leading end-to-end product development — from architecture and API design to responsive frontends and cloud deployment. Adept at integrating third-party platforms (WhatsApp Cloud API, Stripe, PayPal, AI/GenAI tools) and collaborating with cross-functional, global teams to deliver high-quality, maintainable solutions on time.

TECHNICAL SKILLS

Frontend	React.js · Vue.js · Angular.js · HTML5 · CSS3 · JavaScript · jQuery · Electron.js
Mobile	React Native · PWA (Progressive Web App)
Backend	Node.js · NestJS · PHP · Laravel · CodeIgniter
Cloud & Infra	AWS · Web Hosting · Security Best Practices · Docker
Integrations	WhatsApp Cloud API · Stripe · PayPal · Razorpay · Meta API · Botpress · Voiceflow
AI & GenAI	ChatGPT · Claude · Gemini · GitHub Copilot
Tools	Git · GitHub · Agile / Scrum · REST APIs · Responsive Design
Code Editors	VS Code · Sublime Text · Antigravity · WebStorm

PROFESSIONAL EXPERIENCE

Senior Web Developer
Palm Infotech

Feb 2023 – Present
Surat, India

Role & Responsibilities

- Led full-cycle development (planning, architecture, coding, testing, deployment) for multiple client-facing products simultaneously.
- Served as technical lead — reviewed code, mentored junior developers, enforced best practices, and maintained high code quality standards.
- Designed and developed RESTful APIs and integrated third-party services including WhatsApp Cloud API, Meta API, Botpress, and payment gateways.
- Managed frontend and backend development using React.js, React Native, NestJS, and Electron.js across web, mobile, and desktop platforms.

- Collaborated directly with international clients and product owners to gather requirements, define scope, and deliver solutions aligned with business goals.
- Ensured cross-platform responsiveness, application security, and performance optimization across all delivered products.

Web Developer
Harmis Technology

Jul 2022 – Jan 2023
Surat, India

Role & Responsibilities
- Developed mobile-friendly, responsive websites and web applications by converting Figma/mockup designs into production-ready, accessible UIs using React JS.
- Built and integrated Node.js backends, RESTful APIs, and third-party services to support dynamic web application features.
- Applied emerging web technologies to update and maintain site performance, compatibility, and security across projects.
- Collaborated with designers and project managers to translate business requirements into technical solutions on tight timelines.
- Transitioned legacy websites to modern, mobile-first responsive presentations while maintaining feature parity.

Web Developer
VPN Infotech

Jun 2020 – Jun 2022
Surat, India

Role & Responsibilities
- Worked across a wide stack — React.js, Angular, Vue.js, Node.js, React Native (frontend/mobile) and Laravel, CodeIgniter (PHP backend) — adapting quickly to project requirements.
- Developed enterprise-grade SaaS platforms, e-commerce apps, fitness apps, and management systems from scratch to production deployment.
- Contributed to both frontend UI development and backend API design, ensuring seamless integration and performant user experiences.
- Built cross-platform mobile applications deployed on the Google Play Store with high ratings and user engagement.
- Collaborated in agile teams, participated in sprint planning, code reviews, and daily standups to ensure on-time delivery.

FEATURED PROJECTS

Palm Infotech

HitlChat
Botpress · WhatsApp Cloud API · React.js · Node.js

WhatsApp Handoff Integration for Botpress enabling real-time bot-to-human chat transfer. Features role-based agent assignment, mobile & desktop support, and easy no-code setup for businesses of all sizes.

GamesOnPoint
React.js · Node.js · Sports Management

Eco-friendly digital voting platform for sports clubs to confidentially submit player votes. Replaced paper-based voting with secure in-app and external link-based member voting for netball, football, and more.

AGD Bank
React Native · React.js (PWA) · NestJS

Secure mobile banking solution for Asia Green Development Bank, Myanmar. Covers personal, corporate, mobile, and e-banking services with robust security and a seamless user experience.

FNI Life Insurance
React.js (PWA) · NestJS

Full-stack insurance platform for First National Insurance (IBRB License No.007). Supports life and non-life insurance product management with a secure, scalable NestJS backend.

MyKidsPlace
Electron.js · Desktop App

Digital care administration planner for childminders. Reduces paperwork burden, saves time, and cuts costs — built as a cross-platform desktop application using Electron.js.

Afrolete
AI · React Native · Sports Analytics

AI-powered sports analytics platform transforming game videos into actionable performance stats for basketball, football, and rugby teams and coaches.

RESTOK
React.js · Node.js · E-commerce

Premium marketplace for second-hand and vintage fashion, promoting circular economy and sustainable retail in the Latvian market. Live: restok.lv

TaraTok
AI · React.js · Vedic Science

AI-powered Vedic Science and Hasta Intelligence platform delivering personalized guidance for life decisions through astrology and palm analytics. Live: tara-tok.com

EmGar
React.js · Node.js · Social Impact

Multi-faceted social impact platform for the US Virgin Islands, streamlining volunteer coordination, donations, and case management. Live: emgar.io

Wonder Social App
React Native · Geolocation · Security

Real-time social networking platform connecting users via geolocation, with secure identity verification and purposeful meeting features. Live: wondersocialapp.com

Harmis Technology

HejGreen
React.js · Node.js · Sustainability

Platform helping users implement eco-friendly practices in daily life. Bridges the gap between wanting to live sustainably and actually doing it, with habit tracking and inspiration tools. Live: hej.green

Pay & Park
React.js · Node.js · Booking System

Smart parking reservation app allowing campers and travelers to easily book parking spaces on campsites or private lots, on-site or in advance. Live: payandpark.de

Sharing Guru
Node.js · Peer-to-Peer Platform

Community sharing platform for cars, apartments, vacation homes, and more. Connects friends, family, neighbors, and colleagues for resource sharing. Live: sharingguru.app

VPN Infotech

Kichacha
React Native · React.js · E-commerce

Full-featured cross-platform e-commerce mobile application available on Google Play Store with product listings, cart, checkout, and order management.

Carbon App
React Native · React.js · Fitness

Fitness and wellness tracking mobile application available on Google Play Store. Helps users track workouts, set goals, and maintain healthy habits.

Litemaths
Angular · Node.js · EdTech

Educational SaaS platform providing interactive math learning tools and resources. Live: litemaths.com

RemoteCo
Angular · Node.js · SaaS

Remote work management platform helping teams collaborate and manage tasks efficiently. Live: remoteco.com

EDUCATION

Master of Computer Application (MCA)   Jun 2018 – Jun 2020
Sarvajanik College of Engineering & Technology, Surat, Gujarat

Bachelor of Computer Application (BCA)   Jun 2016 – Mar 2018
Deviba Institute of Computer Application, Sabargam, Surat, Gujarat

RECOMMENDATIONS

"Hardik has strong technical skills in developing and maintaining web applications. His debugging abilities are commendable and he writes clean, maintainable, and scalable code following best practices, consistently delivering quality work on time."
— Paneri Shah, Project Manager, Palm Infotech

"Hardik is an extremely talented full stack developer that added a lot of value to our SaaS product. He has an innate ability to solve coding problems, but also understands UI design extremely well. Such talent is hard to find."
— Dale Purdon, Founder & Product Owner, HitlChat
